

NOISE

- ☐ Are there areas in the workplace where continuous noise levels exceed 85 dBA?

Action to be Taken

Assigned To:

- ☐ Is there an ongoing preventive health program to educate employees in: safe levels of noise, exposures, effects of noise on their health, and the use of personal protection?

Action to be Taken

Assigned To:

- ☐ Have work areas where noise levels make voice communication between employees difficult been identified and posted?

Action to be Taken

Assigned To:

- ☐ Are noise levels being measured using a sound level meter or an octave band analyzer and records being kept?

Action to be Taken

Assigned To:

- ☐ Have engineering controls been used to reduce excessive noise levels? Where engineering controls are determined to not be feasible, are administrative controls (i.e. worker rotation) being used to minimize individual employee exposure to noise?

Action to be Taken

Assigned To:

- ☐ Is approved hearing protective equipment (noise attenuating devices) available to every employee working in noisy areas?

Action to be Taken

Assigned To:

- ☐ Have you tried isolating noisy machinery from the rest of your operation?

Action to be Taken

Assigned To:

- ☐ If you use ear protectors, are employees properly fitted and instructed in their use?

Action to be Taken

Assigned To:

- ☐ Are employees in high noise areas given periodic audiometric testing to ensure that you have an effective hearing protection system?

Action to be Taken
